

Environment Policy

Daniels Health Pty Ltd (“Daniels Health”) recognises that environmental management is a key component of effective operational activities, and is committed to protecting the environment in which they conduct their activities. Our commitment to the environment is as important to other business objectives to guarantee the continuity of the company.

Primary Goal

The primary goal of this policy and associated procedures is to ensure that all of Daniels Health activities are planned and performed so that adverse effects on the environment are either prevented or kept to an acceptable level, and meet all legal, statutory, contractual and other requirements.

Strategy

Our strategies to implement this policy are:

- ✓ In order to guarantee the continuity of the company, all activities have to be continually checked and balanced with respect to the risks involved (continual improvement). This will involve applying and demonstrating a systematic approach to environmental management.
- ✓ Demonstrate compliance with all applicable environmental industrial standards. The products and services supplied to customers must not violate legal mandates and/or other requirements.
- ✓ Adequate resources to maintain, train and monitor environmental systems at work will promote a positive culture in the working environment. Communicate our environmental performance to the workforce and governmental bodies on request.
- ✓ All services done on client sites shall adopt the respective clients SHEQ requirements and policies as well as Daniels Health requirements and policies.
- ✓ Develop and apply hazard and risk assessments to identify, assess and manage existing or future potential environmental hazards/aspects. All employees are required to follow instructions and rules for effective environmental management and report incidents promptly to their supervisors.

Application

To enable the policy to be implemented and the defined objectives to be achieved, the management system complies with the requirements of ISO9001, ISO14001 and OHSAS18001, being the Australian and international standards applicable to Daniels Health business.

All those involved either directly or indirectly in the execution of the activities described in this review are obligated to give it their full support, ensure that the required quality level is achieved at the lowest possible cost.

The National Executive of Daniels Health are accountable for that the policy is implemented and that its effectiveness is reviewed annually. This policy applies to all Daniels Health sites and activities.

Dan Daniels
