

Auditsmart

Sharpsmart's perpetual auditing programme evaluates and optimizes all procedures related to safety, infection prevention, compliance, cost and sustainability.

- Methodology
- Calendar
- Ward Level Audit
- Financial Analysis
- Waste Analysis
- Usage Analysis
- Sharps Injury Audit
- SOP's

Auditsmart

The Auditsmart product includes a comprehensive compendium of reporting, analysis and corrective action planning related to all critical procedures throughout the sharps generation and disposal process.

Methodology

Detailed description of the complete Auditsmart processes and procedures relating to your healthcare facility.

Calendar

Details the auditing milestones throughout the 12 month calendar year.

Ward Level Audit

Comprehensive audit and corrective action planning related to the generation and disposal of sharps using the Sharpsmart reusable safety device.

Financial Analysis

Monthly analysis and trending of costs relating to the Sharpsmart service.

Key Performance Indicators

- Safe
- Infection Prevention
- Waste Reduction
- CO2 Reduction
- Cost Effective
- Compliant

Waste Analysis

Detailed monthly analysis identifying segregation and fill level performance traceable to individual wards and departments throughout the healthcare facility.

Usage Analysis

Detailed monthly analysis and trending of Sharpsmart usage against contracted projections.

Sharps Injury Audit

Detailed monthly analysis and corrective action planning related to all sharps injuries reported within the healthcare facility.

SOP's

Depository and version control of all Standard Operating Procedures (SOP's) specifically relating to the Sharpsmart use throughout the healthcare facility. SOP's include specific reference to safety, infection prevention and waste segregation compliance.
